Carry on Baggage

In your hand luggage, pack items you will need immediately upon arrival. Suggested items include cameras, medications, Tefillin, your Chumash, Siddur, a change of clothes, underwear, pajamas, etc.

Please be mindful of airline regulations regarding sharp objects (e.g., scissors, knives, razors) and liquids. These items should be placed in your checked luggage, as airport security will confiscate them if found in hand luggage. Liquids in your carry-on must be in containers of 100 ml or less, packed in a clear plastic bag with a zip or adhesive closure, with a maximum total capacity of 1 litre.

Each airline has specific size and weight limits for carry-on luggage, so please review these guidelines carefully.

Checked in Baggage

Please verify the weight allowance for your checked baggage, which is typically 23 kg (50 lbs) per suitcase. We recommend keeping your luggage under 20 kg (44 lbs) to allow room for any gifts or souvenirs you may purchase during the trip and because the weight allowance for internal flights is 20 kg for checked luggage and 7 kg for carry-on bags.

Chargers & Electricity

Kenya uses type G plugs, which have three rectangular pins in a triangular pattern. Kenya operates on a 240V supply voltage and 50Hz
